REPORT ON THE IMPACT OF A COMMUNITY CLEAN-UP PROJECT

Prepared by: [your name]
Date: 22 September 2026
Project: Community Clean-Up and
Environmental Awareness Project
Location: Ikeja Community, Lagos state

1. Introduction

The Community Clean- Up and Environmental Awareness Project was organized to improve cleanliness, promote proper waste disposal, and encourage member of the community to take responsibility for maintaining a healthy environment.

The project involved students, teachers, community volunteers, and local residents who worked together to clean public areas and educate residents about impotant of proper waste management.

2. Objectives of the project

The main objectives of the project were to:

- Improve the cleanliness of the community.
- Encourage proper waste disposal.
- Create awareness about environmental health.
- Encourage teamwork and community participation.
- Promote a cleaner and safer environment for residents

.

3. Key Activities

During the project, participants carried out several activities, including:

- Cleaning streets and public areas.
- Collecting and properly disposing of waste.
- Cleaning blocked drainage areas.
- Educating residents about proper waste disposal.
- Placing waste bags and collection points in selected areas.

4. Key Achievements

The project produced several position results. A large amount of waste was removed from the targeted areas, making environment cleaner and more attractive

The project also increased awareness among residents about the importance of keeping their surroundings clean. Students and volunteers development better teamwork, communication, and leadership skills through their participation.

Another major achievement was the increased involvement of the community members residents were encouraged to participate in maintaining the cleanliness of their environment even after the project is ended.

5. Impact of the project

The project had a positiveimpact on the community. Cleaning public spaces created a more pleasant environment for residents and visitors. The removal of waste from drainage area also help reduce the risk of blocked drainage and flooding during rain fall.

The project also strengthen cooperation between student, teachers volunteers and community member. Participant gain practical experience in teamwork, responsibility and community services.

6. Challenges Encounterd

Despite its success, the project faced some challenges. This include limited cleaning equipment, inadequate waste collection facilities, and difficulty getting some residents to participate.

The project also required additional time and resources cover all the targeted areas effectively.

7. Future recommendations

To improve future community projects, the following recommendations are suggested:

1. Organize clean-uo activities regularly rather than as a one-tme event.
2. Provide more cleaning equipment and protective materials for volunteers.
3. Increase public awareness through posters, social media and community meetings.
4. Provide more waste bin at strategic location
5. Encourage local businesses and community organizatios to support future projects.
6. Establish a team responsible for monitoring the cleanliness of the area after each project.

8. Conclusion

The community Clean-Up and Environmental Awareness project was successful in improving the cleanliness of the selected areas and increasing environmental awareness among residents .

The project demonstrated that cooperation between student, school, volunteers, and community member can produce meaningful improvements. With better planning, resources, and regular follow - up activities , similar projects can have an even greater and longer-lasting impact.
